Dear Dr. Voorhis:

Thank you for your letter about injection wells. I appreciate your concern for the safety of Texas groundwater.

I expect our state agencies to be responsive and efficient. That is why I nominate good people to serve on our boards and commissions, and trust them to make informed judgments to serve all Texans fairly. My job as chief executive officer is to set goals for state government and hold people responsible for achieving results.

Because this is a matter under the authority of the Texas Railroad Commission, I am forwarding your letter and your report about possible groundwater contamination to Chairman Charles Matthews so that he is aware of your concern. Chairman Matthews can be reached at:

Post Office Box 12967  
Austin, TX 78711-2967

I appreciate your bringing your concerns to my attention.

Sincerely,

A handwritten signature in black ink, appearing to read "GWB", written over the word "Sincerely,".
